

Highlighting a year of **Promise.**

2015 Annual Report

Dear Friends,

Together, with your support, we make success stories possible for so many people.

We restore hope to the lives of children. We provide opportunities for teens to experience joy and plan for positive futures. We support families as they overcome obstacles and recognize their strengths. We help individuals to heal and envision a healthy future for themselves.

As highlighted by the stories in this report, 2015 was an extraordinary year full of promise. The many success stories are a direct result of your investment in our work. Please accept our sincere gratitude. Because of you, a better life is realized by so many.

Our work is not done. There are more children and families in need. We encourage you to continue to lend your support to help a child heal, to provide the opportunity for a young person to succeed, to help a family pave the path to a bright future, to help an individual recover.

You can be the difference in making the next success possible.

Sincerely,

Richard Stagliano 

Richard Stagliano

John Evans

A force for positive change, since 1920.

Center For Family Services is a strong and viable nonprofit social services organization that has been a force for positive change since 1920. Headquartered on Benson Street in Camden, we have a 95 year history of service in the city and in the surrounding region. Today our services are far reaching with several state-wide programs.

We have an extensive record of accomplishments working with neighborhood residents, schools,

government leaders, corporate partners, and social service providers across the community.

Through more than 60 programs, we offer a wide range of services that provide a comprehensive continuum of care. Our focus areas include evidence-based prevention, counseling services, emergency shelters and supportive residential facilities, healing services for those who have experienced abuse or trauma, early childhood education, mentoring, and substance abuse treatment.

Collectively, we make a difference.

Our dedicated team of 743 employees, 830 volunteers, 143 national service members, and Board of Trustees is focused on delivering comprehensive services and fulfilling our mission.

The mission of Center For Family Services is to support and empower individuals, families and communities to achieve a better life through vision, hope, and strength.

The vision of Center For Family Services is for all people to lead capable, responsible, fulfilled lives in strong families and healthy communities.

Under our executive leadership and with the support of our dedicated Board of Trustees, Center For Family Services emerged as a top workplace for the sixth year in a row.

The strength that is possible with your support.

Imagine being faced with the choice of either entering juvenile detention or a group home after several bad decisions. You're a teenager. You're scared. You miss your family. Keep in mind the root of those bad decisions stemmed from serious personal and family challenges that led to hidden anger and deep emotional scars. Monica was that teenager.

After connecting with FAITH she began to work on her emotions and could finally envision a future for herself. Most importantly she repaired her relationship with her family.

**“FAITH saved me
and showed me things
I’ve never seen before.”**

Because of your commitment to Center For Family Services, we were able to provide a stable, homelike environment where Monica thrived amid loving care and patience. She's since left us, happily reunited with her family, and has a secure and healthy vision for a better future.

With your support, Center For Family Services provides a full continuum of care to young people in need of a safe place to live through safe and supportive housing locations across the southern region of New Jersey.

Together, we provided a safe home for **404** youth through 14 unique programs, each designed to meet the specific needs of individual youth.

Our FAITH program provides a safe home to teen girls who are recovering from trauma. During the approximate one year stay, girls receive individual, family and group counseling in a comfortable home setting.

Last year, five girls found a safe home at FAITH. After a one year stay in the program, all five girls graduated and successfully transitioned to a caring home.

The future is bright thanks to you.

Tyysheema “Ty” is motivated. But life hasn’t always been easy. After the tragic loss of her mother when she was a young child, Ty moved from place to place, sometimes with relatives and sometimes in foster care. The trauma and complexities of Ty’s past weighed heavily on her.

Ty had nowhere to turn until she found Center For Family Services. When she and her daughter, Nielle, moved into Camden DREAMS supportive apartments, Ty received the support she needed to set goals and build a positive future. “Being a mother is fun and motivating. There is someone else I have to do this for, work hard for, it’s not just me anymore.”

“I always thought about nursing but never thought I could do it, but the support of Camden DREAMS changed my outlook.”

Because of your support Ty isn’t just surviving, she’s thriving. Ty was able to pursue medical certifications because of community support and is now a Certified Nurse’s Assistant and recently completed a Medication Technician program.

Today, she works full time in the medical field at Cooper Hospital. The future is bright for Ty and Nielle.

Thanks to your support, Camden DREAMS and our supportive apartments provide a safety net to young adults who have aged out of foster care or are without the support of family.

In addition to safe housing, important wrap-around supports including connections to education, workforce development, and housing resources are provided to each young person.

30

30 young people found safe housing at Camden DREAMS and our supportive apartments last year.

100%

100% are employed and / or enrolled in continuing education.

Three people graduated from Camden DREAMS and transitioned to their own homes.

A path to self-discovery paved by you.

Luis faced some overwhelming hardships as a young child and he had some difficulty expressing his emotions as a teen. “I was a kid with a lot of anger,” recalls Luis, “I almost hurt someone I really cared about, that’s when I knew I needed help. Coming to IMANI changed my life.”

Because of you, Center For Family Services was there to provide Luis with the support he needed.

Through the IMANI program, Luis received counseling and support services. He learned how to work through problems and overcome difficulties.

**“Thanks to IMANI
I feel like I’ve found
my real self. Someone
who is cooperative, helpful and
a leader.”**

After a year in the program, Luis graduated from IMANI. He now has the strength to control his emotions and deal with his problems in a healthy way. He is working toward finishing high school with goals to serve in the military and then a career in law enforcement.

With your support, Center For Family Services provided counseling services to **1,739** individuals through 18 specialized programs including in-home programs, individual and group sessions, after-school, and intensive case management programs, all specifically designed to meet individual needs.

Center For Family Services' IMANI program provides structured after school group meetings specially designed to support and encourage youth experiencing emotional and behavioral challenges. The program supports both teens and their families through individual and group counseling, workshops, educational outings, and goal setting.

41

teens received counseling through Center For Family Services' IMANI program.

83%

of youth involved in the IMANI program displayed an increase in positive behaviors.

The promise for the best possible start thanks to you.

She's hardworking, dedicated, and caring. But juggling school, career and being a mother was starting to catch up to Nekeshia.

Our Baby's Best Start program took Nekeisha from good to great; educating her on child development, communication strategies and discipline while being surrounded by other supportive parents.

"I'm always learning something new. The more I went to Baby's Best Start the more things I learned about myself and my children. It helped me become a better parent and person."

Being a parent is the hardest job in the world. But because of your support, we are able to prepare parents and provide them with the support to get their child off to the best possible start in life.

Because of your support, Center For Family Services offers an array of family support and prevention programs centered around building on families strengths.

Our Baby's Best Start program works together with families to provide a strong understanding of child development and the skills to raise happy, healthy babies. The program, modeled off of the Harlem Children's Zone's Baby College, is part of our Promise Neighborhood effort which includes a strong pipeline of birth to age five programs.

As a result of the Baby's Best Start program:

83% % of families developed an understanding of their child's developmental growth and increased their knowledge of effective positive discipline techniques.

100% % of the families were connected to a primary medical facility.

334 Thanks to your continued support 334 families have graduated from Baby's Best Start to date.

Together we are getting kids and families ready.

Education is the first and most important step toward a successful future for the children in our community. We are proud to play a role in educating young children through Head Start, a national program that promotes school readiness and parent involvement.

Current research indicates that kindergarten readiness is a strong predictor of long-term learning success. Our teachers plan creative ways to engage the children each day to give them a strong educational foundation to support the path to grade level reading, high school graduation, college and career.

830 With your support, Center For Family Services' Head Start provided comprehensive full day preschool programming for 830 children and 783 families.

The average monthly enrollment was 96%. Of the children served, 96% of children were from income eligible families and the remaining 4% were enrolled as over income.

The goal of our Head Start preschool program is to get each child ready for kindergarten and on track for grade level reading and long term success in school.

Our work is rooted in the philosophy that healthy communities start with healthy families.

1,447 Our family service advocates completed 1447 home visits to support families with all aspects of their child's development. 93% of enrolled children were connected to a primary medical home and received a medical exam. 88% of children received a dental exam through regular dental providers and through community connections to clinics.

1,571 Family engagement is central to our mission of ensuring all children are ready for school. Parents are encouraged to take an active role in their child's classroom. Last year parents served an average of 1,571 volunteer hours per month and 135 parents participated in parent engagement activities.

We support parents as their child's primary teacher and nurturer. Our teachers and family service advocates encourage parent involvement and offer parents opportunities for growth, so that they can identify their own strengths, needs, and interests.

We guide and prepare parents with the tools and resources necessary for a smooth transition to kindergarten. Our goal is to support parents as advocates for their child's long-term success in school.

Off to a Head Start because of you.

Health & wellness play an important role in ensuring a child's success in school. Thanks to your support, Center For Family Services provides children with a healthy and nutritious breakfast, lunch and snack each day.

Children enjoy mealtimes, which are served family style with new food choices introduced on a regular basis and mealtime discussions that involve input from the teachers and all the children.

Physical exercise is also a key factor in a child's overall healthy development. We increased daily physical exercise by 25%. Now all of our Head Start children engage in 60 minutes of structured and fun physical fitness activities each day.

260 Our Healthy Living, Healthy Learning summer program engaged 260 children in continued high quality learning opportunities that incorporate health, nutrition, and exercise during the summer months.

Weekly trips during the summer months provide enhanced opportunities for learning, all with the goal of ensuring children are ready for kindergarten.

Head Start financial report.

Because of you children are aspiring to greater things.

Ryan is a Quixote Quest teen volunteer with a passion for making a difference. His weekly volunteer commitment is with the Qrew's Nest program where he is a mentor for Jaden.

Ryan and Jaden are one of many pairs of Bigs & Littles in Qrew's Nest. But, what's unique about this pair is they have been together for three years, meeting weekly for Saturday Qrew's Nest sessions which include tutoring in math and reading, mentoring moments, and fun games and activities.

“Jaden is such a hard worker. I love helping him and showing him that he can be successful. He has grown so much in the last few years and accomplished so much.”

Jaden has shown improvement in all areas of academics since he started Qrew's Nest. Next year he will be in 6th grade, and he plans to stay in the program and looks forward to his opportunity to become a Big. When he gets to 8th grade, he will have the option to receive training and support to become a Big.

Then once Jaden is a high school student, it will be his chance to pay it forward. Ryan is rooting for Jaden every step of the way.

Thanks to your support, Center For Family Services launched Qrew's Nest in Camden in 2011 as part of our Promise Neighborhood work. The following year the program was replicated in Trenton.

Qrew's Nest creates a supportive community where elementary school children, known as Littles, are nurtured and mentored in all aspects of development by Quixote Quest high school teen volunteers, known as Bigs.

Each Big is paired with a Little for the entire school year. It is through this consistent, one-on-one positive interaction that the children recognize their potential and believe in their ability to achieve.

The Qrew's Nest mentoring and tutoring program was designed in response to the need to provide more children from distressed neighborhoods with the support needed to help them graduate from high school and continue on a college and career path.

Thanks to your support:

76

children have been paired with Quixote Quest teen mentors since the inception of Qrew's Nest.

100%

% of parents surveyed say the program has helped their child become a better reader.

94%

% of parents surveyed say the program has helped their child be better at math.

Positive change because of you.

With your support, AmeriCorps members are dedicating six months to a year of volunteer service to make Camden a neighborhood of promise where all people have the opportunity to thrive and succeed.

Our PowerCorps Camden members are a group of young people serving full time to tackle pressing environmental challenges. PowerCorps Camden strengthens the community by maintaining and enhancing public space, while breaking down barriers to employment for young people.

Recognizing that over 30% of Camden residents are unemployed, which is over three times the national and state unemployment averages, there is a clear need to provide opportunities for young people to develop the skills required to secure meaningful work and become civically engaged. During their service term, our PowerCorps Camden members gain valuable life and job training skills, work experience, and wrap around social service supports. The program is designed to develop the next generation of leaders.

Vyeesha known as “V” is proud to be a part of making history as a member of the first cohort of PowerCorps Camden. Her quiet demeanor and calming presence make her an asset to her crew. She is quick to smile and laugh and her sense of humor is contagious. V recognizes the value of the program, not just for herself, but also for the community as a whole.

“I joined to give back to the community and to create opportunities for myself.”

Elijah is another member of PowerCorps Camden Cohort 1. He is excited to have the opportunity to be involved in the program and he is already considering a second term of service in Cohort 2. Since he started serving as a PowerCorps member, he has gained so much experience in teamwork and has emerged as a leader among his peers.

“PowerCorps is a great opportunity. It is an opportunity for me to better myself. I keep pushing and moving forward as a member of PowerCorps.”

Elijah thinks more youth will want to be a part of the program and this will have a positive effect on the community as a whole.

Once PowerCorps members complete their six month service term, they receive ongoing support connecting them to options for continued national service, furthering their education, or meaningful employment.

120 AmeriCorps members currently serve in Camden through Center For Family Services. This includes 27 PowerCorps Camden members, 45 VISTA members and 48 School Readiness Corps members. These dedicated national and community service members are making a positive difference in the communities we all share.

Because of your support a better life is possible.

Egypt is a mom devoted to her baby girl. But tough times found Egypt and her daughter Cleo homeless and in need of a safe place to live.

Our Mother Child program welcomed them with open arms and immediately created a plan that would get Egypt back on her feet in no time. Because of you, we were able to provide Egypt and nearly 150 mothers this past year with the essentials necessary for independent living.

“I’m more mature and focused now. I’m dedicated to providing Cleo with a better life than I had.”

Within three months of living in Mother Child’s supportive apartments Egypt’s confidence began to grow. She set financial and educational goals and ultimately secured housing and a steady job so she and Cleo could live self-sufficiently.

Center For Family Services provides temporary emergency housing for women and their young children through the Mother Child program.

Program goals focus on self-sufficiency, with an emphasis on education, employment and housing stability.

Thanks to your involvement:

99 families found safe housing at Mother Child and received services to strengthen their foundation for a positive future for themselves and their children.

43 families transitioned into their own homes, and are redefining their goals towards independence and success.

Reunited thanks to your support.

Like so many people struggling with addiction, Shannon didn't think she had a problem. When she drank, Shannon got angry, emotional, and disruptive, but she never drank in front her children and she held a steady job as a nurse. "I thought I had everything under control."

But, on Mother's Day 2013, Shannon was driving under the influence with her children in the car. She hit a deer and one of her daughters was seriously injured. A separation was imminent. Shannon's mother cared for her children, and Center For Family Services cared for Shannon because of the support we receive from you.

"Family First changed the game for me. The staff are passionate about helping people. They cared, even when I didn't care. If not for them, I would have given up." After 7 months in our Family First program Shannon tapped into her emotions, discovered the root of her unhappiness, and got clean and sober.

"Today I am grateful for life and all its blessings. I've learned that I am worthy of happiness and that ultimately I am a good person but I was sick with the disease of addiction."

Thanks to Family First, Shannon was reunited with her children and has found the strength to regain her health and introduce her family to a pleasant new beginning.

Our Family First program is a best practice program, focused specifically on mothers recovering from addiction. The program removes barriers to treatment and supports mothers in reaching their recovery goals and reuniting with their children.

67 Center For Family Services supported 67 mothers in meeting Family First program goals last year. Because of your support, moms received the help they needed to reunite with their children.

896 Thanks to you, we provided support and counseling to 896 adolescents, adults, and mothers battling addiction. Our Substance Abuse Treatment Services also include a specialized program for the deaf, hard of hearing and hearing impaired.

**Thanks to you
people find the strength,
the hope & the vision
to achieve a better life.**

The decade of abuse Rebecca sustained from her husband was starting to take a toll on her and her two children. “My husband was unrelenting,” recalls Rebecca. When Rebecca escaped with her children, she was numb, lost, and scared. Shortly after, the family was connected with PALS.

During the nine months Rebecca and her children spent participating in PALS, they were truly transformed not just as individuals but as a family.

**“The things
that we learned at PALS
brought us together.”**

Now, her son can sleep through the night because he’s learned stress reducing techniques. Her daughter has learned to accept new people in her life and form new relationships. Rebecca gained confidence and learned assertiveness skills.

“PALS taught me that I am stronger and braver than I thought. I learned that there is more to life than the trauma we have been through.” Because of your investment, Rebecca and her family are safe and they believe that happiness lies ahead.

Thanks to your support, the PALS program is there to assist child victims of domestic violence and their non-abusive caregiver in the healing process through creative arts therapy.

Artwork, play, music, drama, and dance are used to help people express feeling and create emotional distance from the trauma of domestic violence. The therapy sessions help people reduce and manage stress, communicate with each other, build trusting relationships, and cope with the anxieties brought on by trauma.

100%

Exit surveys show that 100% of the families acknowledged improvement as a result of participation in our PALS program.

76

families involved in PALS demonstrated achievement in emotional, cognitive, and behavioral goals.

PALS helps people uncover their inner voice, and recognize their strengths. This recognition brings hope and helps people envision what can be for their future.

Our Continuum of Care

At Center For Family Services we offer a pipeline of comprehensive services through more than 60 programs designed to meet the community's changing needs. We provide the best possible services to ensure every child, every individual, and every family has the opportunity to thrive.

OUR CONTINUUM OF CARE INCLUDES THE FOLLOWING SERVICE AREAS:

- Community Connections
- Counseling and Behavioral Health
- Early Childhood Education
- Family Support and Prevention
- Safe and Supportive Housing
- Substance Abuse Treatment
- Victim and Trauma

Visit us at centerffs.org to learn more about each of our programs.

Thank you to our funders, donors, and volunteers for making a better life possible for so many.

We gratefully honor the memory of Regina Hill, a former board member whose planned gift to Center For Family Services creates a legacy of support for people in need of counseling support and healing.

We would also like to thank all our funders, donors, and volunteers for your dedication to serving the community and for your drive in making positive change towards a better quality of life possible.

Thank you for your investment in our important work.

Thank you to all our donors for supporting our programs, community drives, and events.

Because of you we were able to support more individuals in need. We are thankful for your help in providing monetary gifts and new items that help those in need. Center For Family Services has a continued need for your involvement.

Stay involved and join with your loved ones, friends and coworkers to continue to make a difference.

Visit centerffs.org for information on ways to stay involved.
